

Labor for Bernie 2016

The undersigned union members, leaders, organizers and labor activists support **Bernie Sanders** to be the presidential nominee of the Democratic Party. He is the only candidate who clearly challenges the billionaires who not only stole our pensions, our jobs and our homes, but are now dismantling our democracy. While we come from different unions and backgrounds, our goal is a government that carries out the will of the people, not one that props-up the profits of the 1% at the expense of the rest of us. Senator Sanders is committed to union principles and labor's values. We stand firmly behind him as the strongest candidate who will articulate our issues and stand up for workers.

In Solidarity,*
